

FINE STAINLESS STEEL GUTTERSCREEN

Recommended For

- Bush fire areas
- Very fine debris (e.g. Jacaranda leaves and pine needles)
- Tile Roofs
- Metal / copper roof & gutter
- Rainwater Harvesting

Features

- Long life durability
- Designed for high fire risk areas with an excellent fire rating – Flammability Index 1 (AS 1530.2-1993*)
- Available in epoxy coated in black, silver any ColourBond colour (available by special order, allow 10 working days)
- Can be fitted to all roofing profiles due to the exclusive adhesion system and simple to install, no screwing required (good for metal roofs)
- Super fine to eliminate very fine debris such as Jacaranda leaves and pine needles
- Corrosion resistant - great for copper roofs / gutters and sult water locations
- 15 year manufacturer's warranty

*Tested by CSIRO Manufacturing & Infrastructure
