

# FINE ALUMINIUM GUTTERSCREEN

## Recommended For

- Bush fire areas
- Very fine debris (e.g. Jacaranda leaves and pine needles)
- Tile roofs
- Metal roofs
- Rainwater harvesting

## Features

- Long life durability
- Designed for high fire risk areas with an excellent fire rating – Flammability Index 1 (AS 1530.2-1993\*)
- Available in epoxy and coated black or any ColourBond colour (available by special order, allow 10 working days)
- Can be fitted to all roofing profiles due to the exclusive adhesion system and simple to install, no screwing required (good for metal roofs)
- Super fine to eliminate very fine debris such as Jacaranda leaves and pine needles
- Cost effective metal gutter screen
- 1.2mm x 1.2mm size hole
- 15 year manufacturer's warranty

\*Tested by CSIRO Manufacturing & Infrastructure
